

Fragile Waters: Exhibition Installation Layout by Theme Groups

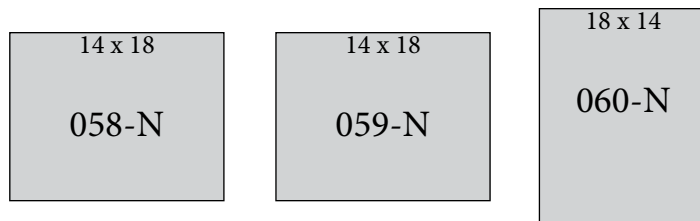

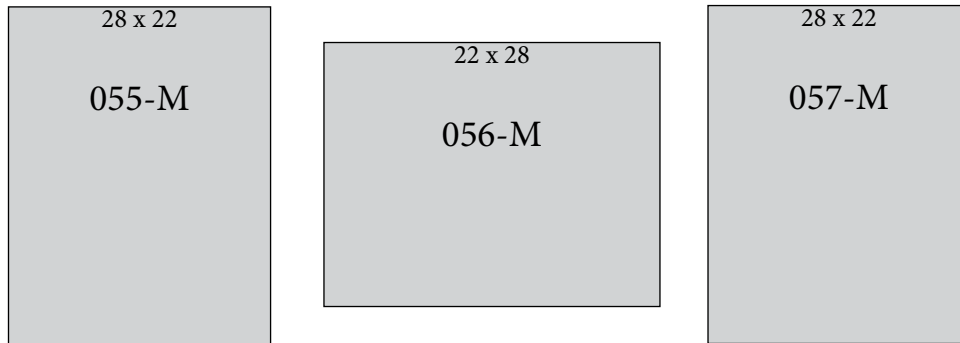

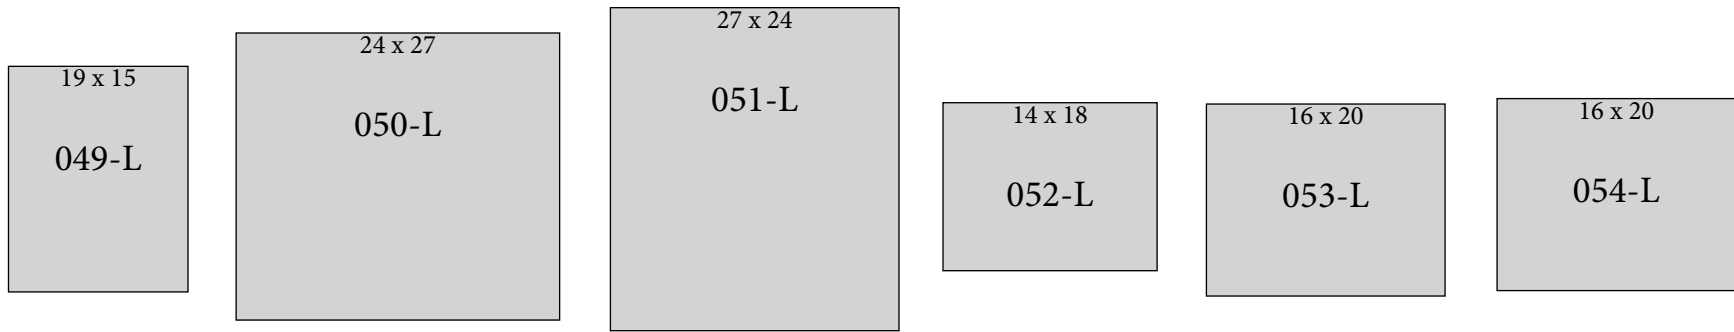

- This details the exhibition curator's suggested installation hanging layout by theme groups A - Z1.
- The sequence of Theme groups may be re-arranged to accommodate the display space and flow, but each group needs to remain intact.
- If the groups are installed as shown the overall exhibition linear footage will be decreased due to the double-hanging of some works.
- The image sizes shown are over-mat dimensions (*final framing will add approximately 1" additional to all dimensions*). Final framing details are pending with the exhibition framer.
- Spacing shown between works reflects the added frame dimensions, not suggested hanging separation, which would be additional, and dependant on/adjusted to the available exhibition space.
- Note some horizontal images are matted vertically (*see separate amended inventory list and framing plan for details*).
